
Dr. Michelle E. Newcomer

Research Scientist
Lawrence Berkeley National Laboratory

mnewcomer@lbl.gov
<https://eesa.lbl.gov/profiles/michelle-newcomer/>

ResearcherID: L-8984-201
ORCID: orcid.org/0000-0001-5138-9026

Curriculum Vitae

Education

- 2012-2016 **University of California at Berkeley**, *PhD Civil & Environmental Engineering*-GPA: 3.87
- 2006–2012 **San Francisco State University**, *M.S. Geoscience: Hydrogeology* –GPA: 3.78
- 2002–2006 **University of California at Santa Barbara**, *B.A. Sociology & French* –GPA: 3.50
- PhD. Dissertation “*Simulating Bioclogging Effects on Dynamic Permeability, Infiltration, and Subsurface Geochemistry*”
- M.S. Thesis “*Recharge Beneath Low-Impact Development and the Effects of Climate Variability*”

Research Interests

- Impacts of California wild-fires on watershed hydrology and water quality
- Extreme climate and changes to groundwater-surface water connectivity
- Harmful Algal Blooms (HABs) and the role of food-webs, riverine exports, and climate perturbations
- Terrestrial Aquatic Interface (TAI): exploring the biogeochemistry of the TAI across large-scale (coastal zones) to small-scale (hyporheic zones)
- New fiber-optic technologies for sensing across the TAI

Professional & Research Experience

Lawrence Berkeley National Laboratory, Climate & Ecosystem Sciences: Berkeley, California

2018-present:
*Hydrological
Research Scientist
(career-track)*

Leading research in the fields of hydrology, biogeochemistry, riverine ecology, harmful algal blooms, groundwater surface-water interactions, and the impacts of fire and climate on the functioning of surface and subsurface systems.

Lawrence Berkeley National Laboratory, Climate & Ecosystem Sciences: Berkeley, California

2016-2018: *Post-
Doctoral Fellow*

Launched the post-fire Sonoma County Water Quality Monitoring Program. Member of the Watershed Function SFA 2.0 Team. Analyzing the effects of climate perturbations on hydrological and biogeochemical cycling in hyporheic zones.

UFZ Helmholtz Centre for Environmental Research: Leipzig, Germany

2013,2014: *Visiting Scholar*

Conducted hyporheic zone and numerical modeling with scientists at UFZ. My research work focused on assessing groundwater-surface water interactions at the Wohler Riverbank Filtration site along the Russian River, CA working collaboratively with the Sonoma County Water Agency

NASA Ames Research Center: Science Systems and Applications Inc. DEVELOP National Program

2010-2012: *Center Lead, Research Adviser, Project Coordinator*

Principal investigator for 3 different applied science research projects. Collaborated research partnerships with the Environmental Protection Agency, the California Department of Water Resources, and the National Park Service. Oversaw the development and implementation of more than 10+ research teams. Developed research topics and wrote project proposals to NASA Headquarters. Participated in outreach events for encouraging students in STEM fields. Member of the DEVELOP strategic planning committee.

2009-2010: *Earth Science Research Consultant-Team Leader*

Lead a team of 5 students on a study analyzing sedimentation in the wetlands of South San Francisco Bay. Responsible for field work and project design, image processing, developing a sedimentation model, statistical analysis, and task delegation. Analyzed sediment samples in the USGS Marine Geology Lab. Primary author on a manuscript for *Geocarto International*.

2007-2009: *Earth Science Research Consultant-Team member*

Used GIS and remote sensing for an environmental analysis of pine beetle attacks and fire severity in the Okanogan-Wenatchee National Forest, Washington. In charge of field work design, and laboratory analysis experiments. Experience with radar, lidar, hyperspectral, and multispectral image processing.

Teaching Experience

Stanford University Pre-Collegiate Institute: *Instructor*

2015: Environmental Science Instructor. Directed all aspects of course preparation and implementation: lectures, code, assignments, exams, and final projects.

University of California, Berkeley: *Graduate Student Instructor*

2013-2014: Teaching assistant for an introductory level Hydrology course. Directed student projects, developed and taught 10 lectures to a 50 person class, mentored students one-on-one.

San Francisco State University: *Lab Technician-Hydrogeology Laboratory, Hydrogeology Research Group*

2010-2012: Conducted hydrogeology lab work including: building soil-moisture characteristic curves, sediment grain size analysis and measuring bulk density, demonstrated lab and field techniques to undergraduate students.

San Francisco State University: *Graduate Teaching Assistant*

2011-2012: Instructed an introductory Oceanography lab for undergraduate students. Responsible for directing field and laboratory activities and gave lectures to a 150 person class.

SETI Institute: *Research Assistant*

2009-2011 Analyzed the influences of stress on igneous rock for enhanced electro-corrosion experimentation. Applications for earthquake and water quality studies.

Community & Agency Service

- International Association of Hydrological Sciences (IAHS) Early Career Committee (ECC) member and representative of the International Commission on Groundwater (2018-Present)
- EESA CESD Division Council Early Career Representative (2018-Present)
- #CAWaterDataChallenge Jupyter Notebook Workshop (2018)
- BLEND Big Data Workshop: LBNL and El Cerrito High School. 2018. [\[link\]](#)
- Reviewer for 5 articles in 2017, 6 article in 2018 spanning journals Water Resources Research, Hydrogeology, Water, Water Research, JGR Biogeosciences, Journal of Hydrology
- AGU (2017) session Co-Chair for Hydrology H081: Linking dynamic hydrologic and biogeochemical processes in watershed systems
- Invited reviewer for DOE's SBR proposals (2017)
- Invited participant and writing team for DOE's Terrestrial Aquatic Interfaces TAI workshop (2016)
- UC Berkeley Resume Writing Workshop, 2014
- UC Berkeley Statement of Purpose Workshop, 2013
- American Society of Civil Engineers Career Seminar "If I knew then what I know now". 2013
- NASA Ames Girls Go Tech "When I Grow Up..." Career expo, 2011 [\[link\]](#)

- Bank of America Joe Martin Scholarship: 2003-2006

Awards and Accomplishments

- NASA Group Achievement Award: August 2014
- Best Student Presentation Award. International Water Association Conference. September 2014. San Francisco.
- Water Resources Research Editor's Highlight. February 2014. [\[link\]](#)
- NASA's Applied Sciences DEVELOP National Program Commitment to Service Award: 2012
- San Francisco State University College of Science & Engineering Graduate Distinguished Achievement Award: May 2012
- Recipient of the NASA Group Achievement Award: July 2011
- NASA's Applied Sciences DEVELOP National Program Project Achievement Award: 2008-2012
- Earthzine Honorable Mention for Outstanding Video: 2012
- Dean's List, UC Santa Barbara: 2004
- High School Senior Class Vice-President: 2001-2002
- California Scholarship Federation Academic Achievement Award: 1998-2002
- National Society of Collegiate Scholars Academic Achievement and Member: 1998-present

Professional Memberships

- American Water Works Association: 2013-Present
- Association of Engineering Geologists: 2011- Present
- American Society of Civil Engineers: 2011- Present
- American Geophysical Union (AGU): 2009 - Present
- Geological Society of America (GSA): 2010 - Present
- American Society for Photogrammetry and Remote Sensing (ASPRS): 2007- 2012

Special Training & Skills

MIN3P, R, UNIX, GSSHA, Modflow, Hydrus-3D, PHREEQC, Matlab, ArcGIS 10, ERDAS Imagine, ENVI, Python, C++, Fortran, LabVIEW, SPSS.
